

Ahnaf Taiyeb

Full-Stack Developer — Software Engineer

[GitHub](#) • [Portfolio](#) • [LinkedIn](#) • ahnaf.taiyeb@gmail.com

Professional Summary

B.Sc in CSE graduate with experience in building full-stack applications using **React**, **Next.js**, and **Django**. Specialized in decoupled architectures, high-performance **RESTful APIs**, and scalable web systems. Practicing DSA and problem solving on Codeforces, LeetCode. Passionate about building efficient, user-centric applications and continuously learning emerging technologies.

Technical Skills

Languages: JavaScript (ES6+), Python, C, C++, SQL

Frontend: React, Next.js, Redux Toolkit, TanStack Query, Zustand, Tailwind CSS, Shadcn UI

Backend: Django, Django REST Framework (DRF), JWT Auth, Celery, Redis

Databases & Tools: PostgreSQL, MySQL, Git, GitHub, Cloudinary, Firebase, Postman, Docker

Key Projects

Sync – Full-Stack Social Media Platform

[Live Website](#) — [Backend](#) — [GitHub](#)

Next.js, Django REST Framework, TanStack Query, Celery, PostgreSQL, Redis

- Architected decoupled platform with optimized data fetching and state persistence.
- Engineered real-time engagement system with nested comment threading and optimized queries.
- Integrated TanStack Query for server-state management, reducing API overhead by 50%.
- Built async pipeline using Celery and Redis for non-blocking media processing.

Creative Agency Portfolio – Ahmed Digital

[Live Website](#)

Next.js, GSAP, Tailwind CSS, SEO Optimization

- Developed visually driven portfolio using GSAP for scroll-triggered animations.
- Achieved 95+ Performance score on Lighthouse via image optimization.
- Implemented responsive, high-conversion UI for international agency clients.
- Optimized SEO meta-tags for improved search visibility and engagement.

Modern E-commerce Website

[GitHub](#)

Django, DRF, Next.js, Redis, Celery

- **Secure Auth:** Engineered a system utilizing HTTPOnly cookie-based JWT for secure session management, integrated Google OAuth 2.0, and email-verification based signup.
- **Performance:** Optimized DRF backend through database indexing and query optimization, successfully reducing API response times to sub-500ms.
- **Async Workflows:** Integrated Celery and Redis to handle intensive background operations and automated media uploads to Cloudinary.

Education

B.Sc. in Computer Science & Engineering (CSE)

2022 – 2026

Canadian University of Bangladesh

CGPA: 3.65

Certifications & Learning

- **Full Stack Development (Python, Django, React)** – Interactive Cares ([View Certificate](#))
- **CSE Fundamentals** – Phitron
- **Leadership:** Active Member, **CUB CSE Computer Society** – Organized tech workshops and seminars to promote technical growth and peer learning.
